15 January 2015

Dear Ms Dadabhoy

The report to follow outlines your results from the Friends and Family Test. This report is based on the feedback from 13 patient questionnaires in December 2014. Of those 13 patients who responded to this survey, 13 (100%), filled out a paper questionnaire and 0 (0%), completed a questionnaire online.

In order to enable us to improve our services we would be grateful if you could complete a feedback form using the following link: <http://www.cfepsurveys.co.uk/questionnaires/feedback/default.aspx?psid=179757>

Please contact the office on 0845 5197493 or reports@cfepsurveys.co.uk if you require further information about your results.

I hope the report forms a useful basis for reflection on the service provided to patients.

Yours sincerely

CFEP UK Reports Team

Sample patient questionnaire

Frequency and distribution of ratings for the Friends and Family Test question

How likely are you to recommend our GP practice to friends and family if they needed similar care or treatment?

Table 1

Criteria category for scoring	Response scale	Number of responses	Percentage of responses*
Promoters	Extremely likely	9	75%
Passive	Likely	2	17%
Detractors	Neither likely nor unlikely	0	0%
	Unlikely	0	0%
	Extremely unlikely	1	8%
	Don't know	0	0%
Total responses to this question		12	100%

* May not add up to 100% due to rounding

Number of patients who left Q1 blank (but provided other feedback on the questionnaire)	1
Total number of patients providing feedback	13

Graph 1

92% of patients who responded to the survey would be either extremely likely or likely to recommend your practice to friends and family if they needed similar care or treatment.

The sum of the 'Extremely likely' and 'Likely' percentage of responses in Table 1 may not equal the percentage in the grey box above due to rounding.

Cumulative and previous survey information

Table 2

	Total responses to Q1	Percentage of patients extremely likely or likely to recommend	Frequency and distribution of ratings					
			Extremely likely	Likely	Neither likely nor unlikely	Unlikely	Extremely unlikely	Don't know
Cumulative feedback*	12	92%	9	2	0	0	1	0
Dec-14	12	92%	9	2	0	0	1	0

*This cumulative feedback is based on the sum of the previous months survey data, as below (up to a maximum of 12 months).

Patient comments

The following comments are from patients who indicated that they were happy for these to be made public.

All comments are included in their entirety but all attempts have been made to remove details which could identify specific patients or practitioners.

Please tell us why you answered as you did in question 1:

- Because it is a lovely, clean surgery with friendly staff and caring doctors.
- Service provided by the staff and doctors are up to standard.
- Good doctor - patient with us - listens, always willing to help, can see them within one or two days. Staff excellent, very helpful.
- Have moved from a surgery in the past that was not so accommodating regarding patient needs.
- Fantastic, caring, considerate doctors. Been with surgery 45 years. Always been very satisfied with care and treatment.
- I have been really pleased with the practice.
- We have a very good doctor and excellent service.
- I think the doctors here are exemplary in the way they interact and diagnose and dispense medical aid.
- I had contraception fitted and the doctor was very skilful and professional and explained everything nicely throughout the procedure.
- Very lovely doctors and staff always helpful and go that extra step.
- I have been a patient here for over ten years and the service has always been excellent.
- Because been with the surgery long time, and happy with my doctor.
- They were helpful.

Additional information on the Friends and Family Test

The Friends and Family Test (FFT) is a feedback tool that supports the fundamental principle that people who use NHS services should have the opportunity to provide feedback on their experience that can be used to improve services. It is not a traditional survey. It is a continuous feedback loop between patients and practices.

Practices can use the feedback gathered through the FFT to celebrate successes and to support staff to make improvements where the experience of service does not live up to expectations. FFT results are also one useful source of information which can help to inform choice for patients and the public.

More information and guidance about the use of the FFT in the NHS can be found at <http://offlinehbpl.hbpl.co.uk/NewsAttachments/PGH/FFT.pdf> and <http://www.england.nhs.uk/wp-content/uploads/2014/07/fft-imp-guid-14.pdf>.
